## NOTES FROM PASTOR –

"The lamp of the body is the eye. Therefore, when your eye is good, your whole body also is full of light. But when your eye is bad, your body also is full of darkness. Therefore take heed that the light which is in you is not darkness. If then your whole body is full of light, having no part dark, the whole body will be full of light, as when the bright shining of a lamp gives you light" (Luke 11:34-36).

The dietician tells us *you are what you eat*. The fashion designer tells us *you are what you wear*. The educator tells us *you are what you know*. But even more accurately, *you are what you see*.

Remember this little song from your childhood: *Oh, be careful little eyes what you see. Oh, be careful little eyes what you see. For the Father up above is looking down in heavenly love. Oh, be careful little eyes what you see.*

Oh the temptations that come to us visually . . . that dessert we just can't resist; that new car a friend is driving which we just can't afford to have; that new diamond (and new outfit to go with it) we've been desiring. The list can go on and on. No wonder David said, "I will set nothing wicked before my eyes." (Psalms 101:3)

What goes into our body through our eyes comes out in some form. If the eye is clear, single, and full of God's light, it will direct us to good works that bring glory to God. (By Tannis Duncan, retired public school teacher and speech therapist)

-A BIG GOD This is a story about a little girl who, on the way home from church, turned to her mother and said, "Mommy, the Preacher's sermon this morning confused me." The mother said, "Oh! Why is that? The girl replied "Well, he said that God is bigger than we are. Is that true?" "Yes, that's true," the mother replied. "He also said that God lives within us. Is that true too?" Again the mother replied, "Yes." "Well," said the girl. "If God is bigger than us and He lives in us, wouldn't He show through?"
